You have 24/7 access to your account

That's right, you can view your account activity online or via our app.

You can also access your funds with your ATM/MasterCard Debit Card.

Remember, you need a share draft (checking) account to be able to use your card for purchases.

Using your card like a MasterCard, signing not using your PIN, gives you the most available funds and provides the most protections. Your limit with the PIN is the lessor of your share draft balance or \$500. With you make a signature purchase, it is the lessor of \$5,000 or your share draft balance.

And should you need to, you can transfer from share to share draft online, via the app or at an ATM and the funds will be available immediately.
